

RESULTS REPORT 2016

TCT TOOLKIT PILOT TESTS - all partners

ACTION C8 - PROJECT INF/BE/000459

1. Introduction

Action C.8 stipulates the pilot implementation of the best practice guidelines and toolkits which were developed under action C.4 of the project. The aim is to implement and monitor the customized toolkits by the end of the project in/by

- 100 public authorities and associations
- 100 companies
- 100 educational establishments
- 100 citizens

Each of the partners is responsible for testing at least 25 actions per target audience.

In order to evaluate the pilot implementation, IBGE-BIM developed a questionnaire for action developers which can be found in annex. Not all of them used the questionnaire to evaluate their action(s). The results for these actions were obtained via other means, like direct mails, general evaluation reports from businesses which were sent, etc.

The targeted communication toolkits with guidelines which were developed under action C.4 are subdivided according to 4 target audiences:

a) public authorities and associations

- Canteens against food waste
- Composting campaign
- Eco-restaurants
- Repair market
- Reuse event
- Reuse initiatives
- WEEE collection day
- Packaging waste reduction campaign
- Paper waste reduction
- Waste sorting

b) citizens

- Let's learn to sort our waste better!
- From kitchen to garden: everything on the compost heap!
- Encouraging reuse
- Clean your house with green products
- Done with wasted food!
- Less packaging
- Go easy on the paper
- Adverts? No, thanks!
- I share, you share... let's share!
- Packaging waste reduction campaign
- Paper waste reduction
- Waste sorting

- All together, commit!

c) business

- Eco-restaurants
- Ecotourism
- Green Commerce
- Green events
- Low-paper offices
- Packaging waste reduction campaign
- Paper waste reduction
- Waste sorting

d) educational establishments

- Food waste competition
- Waste detective programme
- Reuse event
- Packaging waste reduction campaign
- Paper waste reduction
- Waste sorting

2. Number of actions tested in 2016

The 4 associated beneficiaries tested the proposed TCT-actions (TCT = targeted communication toolkit, including guidelines). Each associated beneficiary developed a report on the implementation of the TCT's in their territory. This report summarises the results obtained by the 4 partners. For more details about the implementation in a specific territory, please refer to the separate report for that territory.

In total 880 actions were tested in 2016: 545 by ARC, 49 in by IBGE-BIM, 51 by AICA and 235 by NWMD.

	ARC	IBGE-BIM	AICA	NWMD	Total
public authorities and associations	61	8	5	60	134
companies	3	3	20	54	80
educational establishments	76	15	9	61	161
citizens	336	23	17	60	436
internal	69				69
Total	545	49	51	235	880

3. Results per target audience

General remarks for the calculation of the results:

For reuse events like second hand markets or repairing objects, the data obtained during the Week can not be extrapolated over the year, since it's a one shot event.

Also some other actions are sometimes one shot and others are about introducing new habits, therefore, not all results were extrapolated over the year.

3.1. Administrations and associations

436 TCT actions were carried out by citizens during the Week. 359 of them were commitments which were made through the online commitment tool. The implementation of these actions during the Week in November 2016, lead to **1,3 tonnes** of waste composted, avoided, recycled or reused during 1 week.

3.3. Business

- 80 actions tested

TCT factsheet	number of actions	reused kg		composted kg		avoided kg		recycled kg

	80	35,6	50			834,4	21.450	1.334,8	NA

The implementation of 80 TCT actions by companies during 1 week gives a result of **2 tonnes** of waste avoided, recycled or reused.

3.4. Schools

- 161 actions were tested

TCT factsheet	number of actions	reused kg		composted kg		avoided kg		recycled kg	
		Week	Year	Week	Year	Week	Year	Week	Year
Food waste competition	12					76	8.003		
Waste detective programme	38	30	60			115	5.259	330	1.380

	161	3.512	76.918	1.182	7.353	231	14.702	1.956	28.333

Almost **7 tonnes** of waste was avoided, composted, recycled or reused during the Week in November 2016, thanks to actions implemented by schools.

If these results are extrapolated for a whole year, the implementation of the 161 TCT actions gives a yearly potential of **130 tonnes** of waste which is avoided, recycled or reused.

In 2016, reuse events in schools were extremely popular, and also very efficient.

Targeted communication toolkits | Report

The implementation of the 811 TCT actions by the action developers in the territories of the 4 associated beneficiaries during 1 week in November 2016 was a real success with a result of **more than 31 tonnes** of waste composted, avoided, recycled or reused.

An initial target of testing 100 actions per category was set, this target has been reached. In fact, the 4 associated beneficiaries tested far more TCT's than the 25 per target audience, which was the initial goal.
